Front Gate State - Right (15/05/2020 16:27:47) <div>OPEN</div>	Front Gate State - Left (15/05/2020 15:52:55) <div>OPEN</div>	Chemical Shed Door State (15/05/2020 15:49:00) <div>CLOSED</div>
Workshop Door State - Right (15/05/2020 16:22:23) <div>CLOSED</div>	Workshop Door State - Left (15/05/2020 16:20:45) <div>CLOSED</div>	

Current status of front gates and workshop doors.

Using radio telemetry connection to position sensors, this solution provides remote information on the position of gates and doors. Alerts can be raised when gates and doors are opened with dates and times recorded.
